# WHY US

Benetti is about innovation, ingeniousness and execution with the finest form and function. Benetti has been specifically curated to make designer and decorative laminates that has a versatile ethos. Benetti is range that flaunts a natural flair, where eco-friendly surfaces become a norm and sustainability creates phenomenal possibilities of juxtaposing great aesthetics with enormous poise. it has an extensive products range consisting of designer laminates and decorative products.

- For exceptional solidity, our 6H Anti scratch Acrylic Laminates are available in 2.5~1.3mm Thickness
- Our laminates are specially treated to ensure they remain termite and borer free for several eyes.
- Our Anti Scratch Acrylic Laminates are extremely sturdy and durable. They can withstand heavy loads easily.
- For ease of use and effortless installation or range of laminates have been developed in a way to keep them extremely light weight.
- Treated with a special coating on the surfaces, our 6H Anti Scratch Acrylic Laminates are water proof as well as stain resistant
- Our range of laminates has effortless and exceptional adhesion properties, which allows it to be used in vertical applications.

Superior High Gloss

Water Proof

Anti Scratch

Please open the roll immediately, Do not pressurize while opening roll

## CLEANING INSTRUCTION AND MAINTENANCE

BENETTI high gloss acrylic laminates comes protected with high-quality protective film which is only removed at the completion of all installation work. After the protected film is removed, there is still presence of solvent from the adhesive coating of the protective film on the surface of the high gloss acrylic laminate. An electrostatic charge is built-in and attracts dust onto the surface of the panel.

During this time, the acrylic laminate surface also cures out under the influence of normal air humidity Under normal circumstances, the curing process will take approximately 72 hours for the surface to be totally cured in order to speed up the process, We recommend cleaning the high gloss surface with COLIN glass cleaner and soft micro fiber cloth.

## WARNING

DO NOT use of the following cleaning products.

- \* Alcohol-based cleaners
- \* Solvent-based cleaners
- \* Petrol, pinewood or oil based cleaners
- \* Cloth other than a micro fiber

**No Guarantee in any circumstances.**

like crack, Bubble, Color Fade and color Variation

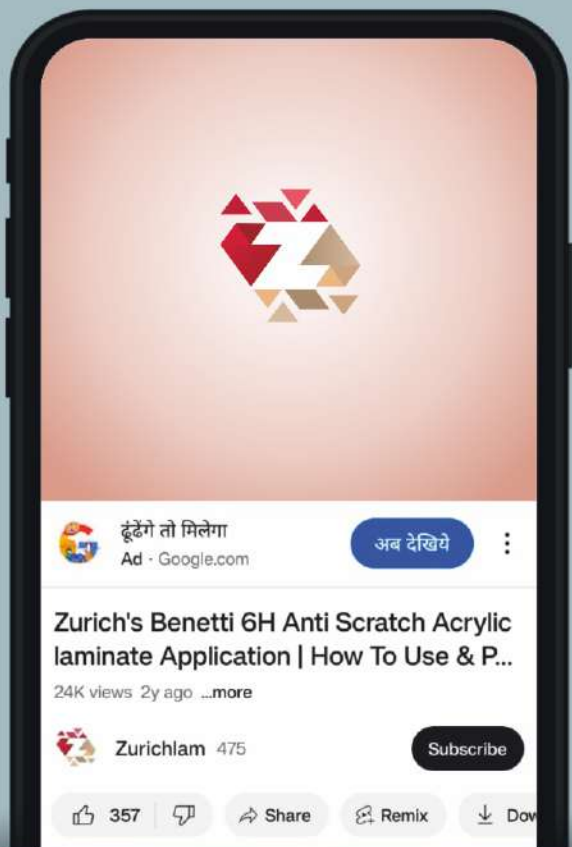

**Please check material when delivered.**

## ZURICH WARRANTY

Our verbal and written advice relating to technical application is based on experience or stored and is correct to the best of our knowledge, and given without obligation. The use of **ZURICH** products by user in various conditions that are beyond our control. We recommend that the suitability of any **ZURICH** products for the intended application should be checked by user before the utilization. Utilization and processing of our products are beyond our control and are therefor exclusively user responsibility. Application errors, wether instability, low workmanship skill cause cracks and air bubble in Furniture. Inferior quality chemicals used substrate (plywood/MDF) cause yellow patches from back inside sheets. Due to import products company not get any warranty/ guarantee from supplier, so company can not give any warranty / guarantee also. No complaints will be attended and no claim will be settled. In the event of manufacturing defect **ZURICH** is liable to entertain it within one year from date of purchase, after one year from date of purchase company will not attend any type of complain. Any compensation will be limited to the value of the goods supplied by us and used by you. Please use only **ZURICH** bond for application "Benetti 6H Antiscratch Acrylic Laminates" for good bonding with substrate.

## FEATURES

Treated with a special lacquer coating on the surface, our 6H anti scratch acrylic laminates can bear daily wear & tear.

Anti-Yellow UV Resistance

Lots of Range and Huge Collection

Our Anti Scratch Acrylic Laminates are Extremely Study and Durable. They Can withstand heavy loads easily

Our Laminate are specially treated to ensure they remain termite and borer free for several years

For ease of Use and Effortless installation, our Range of laminates Have been Developed in A Way to keep them Extremely Light Weight

Anti-bacterial and Anti-fungal

Low Porosity Low Water Absorption

# reasons for air bubble formations on acrylic sheets

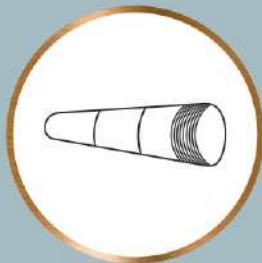

To avoid de lamination / air bubbles in between ply and laminate the above steps should be taken care of.  
Bonding of acrylic sheets shouldn't be completed under high humidity

## Causes of yellow patches and colour fading after installation:

Causes Of Crack Lines Or Stretch Lines In Benetti Acrylic Laminates Sheets.

To avoid the inside cracks & stretch line Do not store acrylic sheet in roll form.
